RETURN ON INVESTMENT

For businesses that choose to enhance their signage with a Personal Billboard System, the owners typically see an increase in business of 15% to 150%. Using the smaller number, consider the following example.

A small business generating \$1,000.00 a day in revenue adds a Personal Billboard System. The business soon increases by 15% adding another \$150 per day in total revenue. That translates into an additional \$1,050.00 a week in revenue, or \$54,6000 per year.

*Statistics taken from the U.S. Small Business Administration

"It's a no brainer, buy it once and it will do all the instant advertising for you, cut back on newspaper, TV, radio etc..."
